Oyster Light
GKA06

This surface mounted oyster light is perfect for mood lighting and energy saving. With a clean design, it is a great way to install on surfaces such as brick or concrete where traditionally an oyster light fitting would be required.

This light can be used for living rooms, bedrooms, cafes, restaurants, retail shops or wherever stylish design is required.

The 24W version can also be integrated with battery backup.

Features

- Easy Installation
- Opal poly diffuser
- Long lifespan and little maintenance required
- Suitable for both business, commercial & residential installation
